Following publication of the original article [1], the authors found an error in Fig. 1B: the immunohistochemical images in the ACEI and AD-ACE2+ACEI groups were mistakenly used, which were partially overlapped

with the correct image in the Ad-ACE2 group. They went back to their raw data and found the original immunohistochemical images in the ACEI and AD-ACE2+ACEI groups (n=10 in each group). The corrected Fig. 1B is given in this correction article.

The authors apologise for this error.
